

AUTOMOTIVE LUBRICATING OILS

ENGINE OILS 20w40, 15w 40, 4T, 20w50

Capricorn Engine oil are high quality multi grade Engine oil. Which is selected high quality mineral oil and further fortified with high quality performance additives. These oils are recommended for Lubricants of diesel engines coupled with generally sets operating under moderate duty conditions.

Capricorn 15w40 Engine oil: It is a high Quality performance Multi grade engine oil meeting AP1 CF4/SJ Plus MB 228:1 performance requirements formulated from selected base oils and additives to suit petrol and diesel engines operating under severe duty condition. Product features: provides excellent production against high temperature engine deposits, lower temp. Flouting and high temperature film strength under severe condition.

Capricorn Gear oils 90, 140 Capricorn gear oils are high quality mineral base oil and further fortified with high quality performance Ep additives. Which provide protection in application where shock loading occurs. These oils are recommended for use in a wide range of heavy duty enclosed and semi-enclosed gear systems having any types of gears, industrial, plain and roller bearings, sliding surfaces, chain drives and high load for continuous service up to 110.c

INDUSTRIAL LUBRICANTS

HYDRAULIC OILS.

CAPRICORN 32,46,68,100,150,220,320,& 460

Capricorn hydraulic oils are suitable in marine hydraulic power system such as winches, deck cranes, steering gears paper mills, plastic film calendars, machine like automatic, CNCs and hydraulic press which has hydraulic system requiring anti-wear oil. hatchcover and hydraulic valve systems. Capricorn hydraulic oils are high viscosity index multigrade hydraulic fluids. Which has good demulsibility and excellent filterability hydrosystem oils. Capricorn hydraulic oils contain a highly effective zinc based anti wear additive, as demonstrated by the four ball wear, vane pump wear and FZG gear test results.

COMPRESSOR OILS

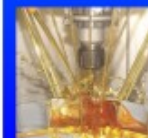

CAPRICORN COMP-150/220/320

Capricorn: High performance compressor oil is used in reciprocating and rotary air compressor. These oil can be used up to 220c air discharge temperature. These oil have high viscosity index, high protection against running and expended drain period.

CAPRICORN GMP OILS

GMP OILS 22,32,46,68,100,150,220,320,& 460, 720

IN NON CRITICAL all loss lubrication systems and hand oiling applications involving lubrication of Bearing , open gears, lightly loaded slide and guide ways of machine tools lubrication of looms in textile mills

HI SPEED SPINDLE OILS.

CAPRICORN SPIN: 2/5/12/22

Capricorn spin oils are manufactured from highly refined low viscosity base stocks. These oils are recommended in bearing lubrication of high speed textile spindle and machine tool spindles and also recommended for timing gears, positive displacement blower and tractor mechanism and hydraulic systems of precision machine tools.

VACUUM PUMP OILS

CAPRICORN HIVAC VM4

Capricorn Vm4 oil is a specially developed vacuum pump oil having low vapour pressure and high thermal stability. These oils have good oxidation stability and fortified with high quality additives.

QUENCHING OILS

CAPRICORN QUENCH ; 11 / 39

Capricorn Quench Oil is a general purpose quenching oil recommende for normal quenching of wide variety of steel parts such as nuts, bolts, ballbearing and certain type of brake drum etc. ,

RUST PREVENTIVE OILS

CAPRICORN RNP350/450/550/650

Capricorn Rust Preventive Oils are soft film deposited water displacing premium quality rust and corrosion preventive films. These oils can be applied directly to water wet metals surfaces were they displays water and leave an oily films which as marked antirust properties this can be applied either by dipping or spraying.

WATER SOLUBLE CUTTING OILS

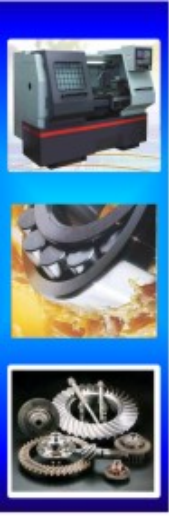

CAPRICORN CUTSS/SSA

Capricorn cutting oils are water soluble cutting oils recommended for wide range of machining operations. viz grinding, drilling, turning etc on both ferrous and non ferrous.

STRAIGHT CUTTING OILS

Capricorn straight cutting oil is inactive sulfurized cutting oil blended from specially selected high viscosity index base stock. It provide excellent performance in all machining operations on ferrous metals where the severing of operation is not high. This oil is recommended for gear hobbing , screw cutting, tapping, milling , reaming etc.

AUTOMOTIVE AND INDUSTRIAL GREASES

Capricorn Ap3 grease

Capricorn ap3 lithium soap multi functional grease good thermal and structural stability and medium consistency, fortified with anti oxidants and anti rust additives. possess high water resistance properties. These grease is recommended in the application of Universal joints, wheel bearing, chassis, bearing and industrial bearing etc.

WHEEL BEARING GREASE

CAPRICORN wheel bearing grease is sodium based grease. this can be used at high temperature equipment and machinery widely used in steel plants, heavy engineering units, textile mills, petrochemical unit etc.

All kinds of lubricants and greases available as per your requirement

An ISO 9001 : 2008 Certified Company
